Eee PC 1015B

ASUS Eee PC 1015B - Unprecedented performance for excellent multimedia enjoyment

- Genuine Windows® 7 Starter
- Thin and light AMD Brazos platform with Accelerated Processing Unit (APU) combines high performance with low power consumption
- ATI Radeon HD 6250 integrated graphics, DirectX® 11 and Unified Video Decoder 3 for high definition visuals
- Enjoy Full HD 1080p on a HDTV or big display via a HDMI connection

Superior performance with the AMD dual core processor

The latest AMD Brazos C50* processor provides users an unprecedented experience of the all new Accelerated Processing Unit (APU). The APU combines a high performance CPU and discrete GPU giving users the best in multimedia enjoyment. With the super low power consumption that the Eee PC 1015B draws, you can have fun anytime, anywhere.

No compromise with the battery life

Thanks to the ASUS exclusive Super Hybrid Engine technology, power consumption can be saved up to 15%, providing up to 8.5** hours of battery life. Users can enjoy all day computing without worrying about the need to recharge in a few hours.

Stay connected

Stay connected a variety of ways. With built in 802.11b/g/n Wi-Fi and Bluetooth 3.0*, staying online while on the go has never been easier. Transfer your photos and more 10 times*** faster than USB 2.0 with the latest USB 3.0* ports built-in to the Eee PC 1015B.

Unbelievable HD multimedia experience

With the embedded ATI Radeon® HD 6250 graphics, the Eee PC 1015B provides users the best portable multimedia enjoyment for its size. DirectX® 11 support – exceptional 3D performance allows users to play games and video smoother than ever before. Users can enjoy smooth, Full HD 1080p content through the HDMI port to an HD display without any latency. Connect it to a home theater system to enjoy true 7.1 Surround sound playback alongside the Full HD content for the ultimate viewing experience.
